Attention: Traffic Advisory on Airport Heights Drive

Work will continue in 2025 as part of the multi-year Major's Path and Portugal Cove Road Improvements project.

To support this work, traffic on Airport Heights Drive will be disrupted at the Portugal Cove Road intersection to allow for the replacement of a large culvert on the Virginia River, located near Rhodora Street. Expect lane reductions, traffic slowdowns, and detours until fall 2025.

Starting on May 12:

- Airport Heights Drive will be reduced to one lane, one-way only, heading toward Portugal Cove Road.
- No traffic will be permitted to enter Airport Heights Drive from the Portugal Cove Road/ Major's Path intersection.
