Survey Three Results
Housing

May 2022

ST. JOHN'S

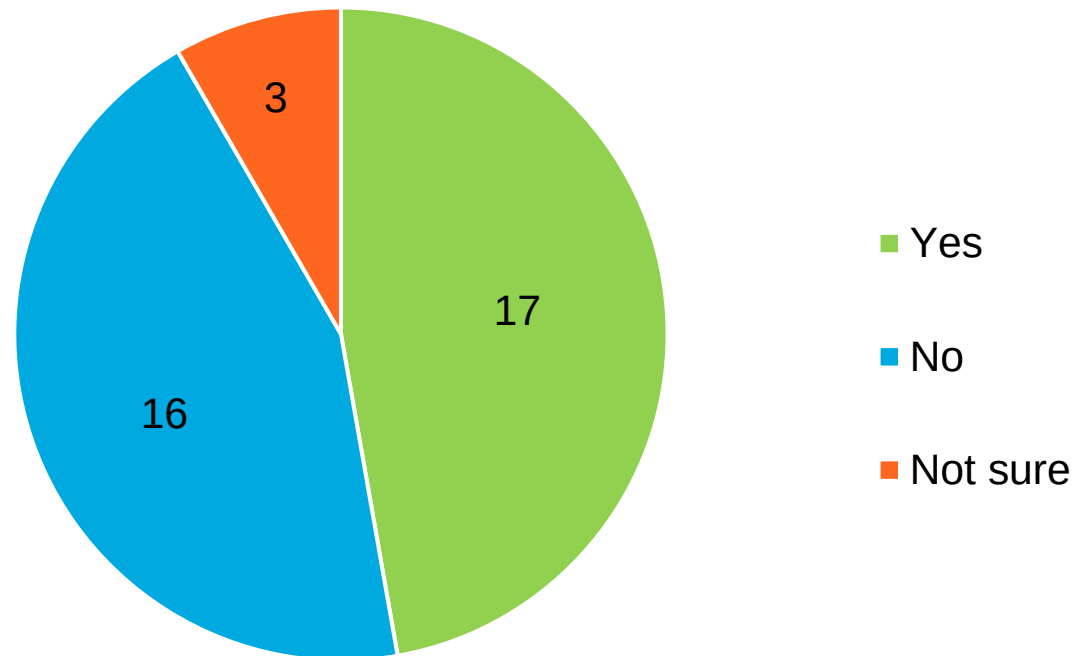

Housing

An earlier survey asked participants to rate the most important from a list of indicators. 77% listed Cost of Living as important, and 20% ranked it as one of the top 3 things the City should focus on. This survey followed up by asking about one element of Cost of Living – Housing, with a focus on Affordable Housing.

Affordable Housing is defined by having all your housing costs (including related expenses such as taxes and utilities) total less than 30 percent of your pre-tax income. Approximately 1 in 4 households in St. John's live in what we would define as “unaffordable” housing using this measure.

Housing

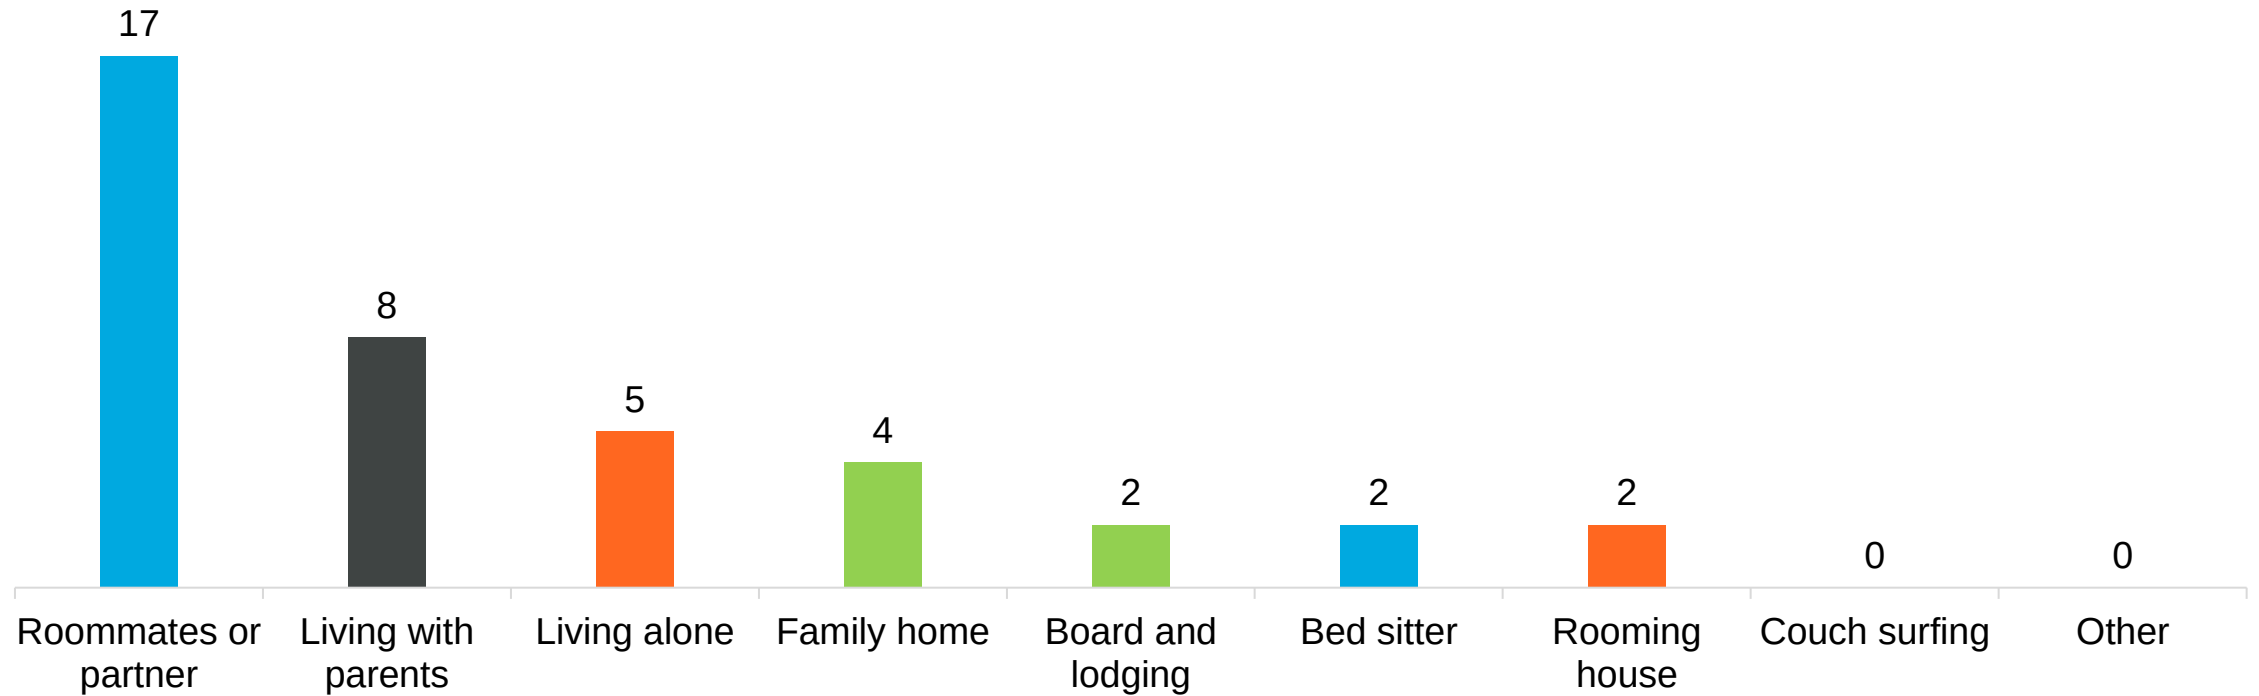

Has access to Affordable Housing (as defined by housing and related costs totaling less than 30% of your household's pre-tax income) been an issue for you in the past 2 years?

n = 33

Housing

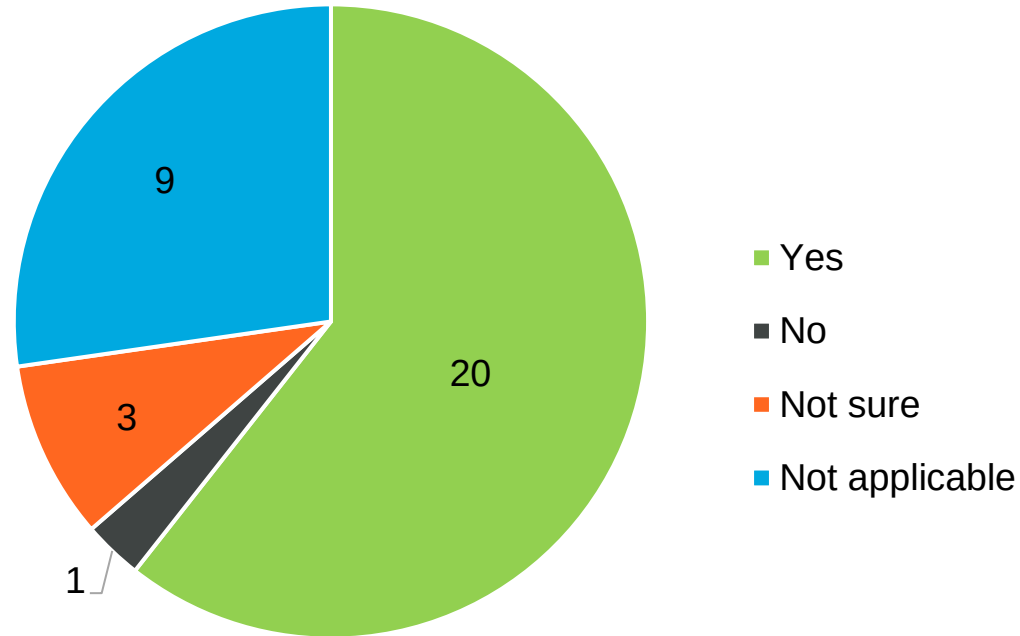

What is your current housing situation?

n = 33

Housing

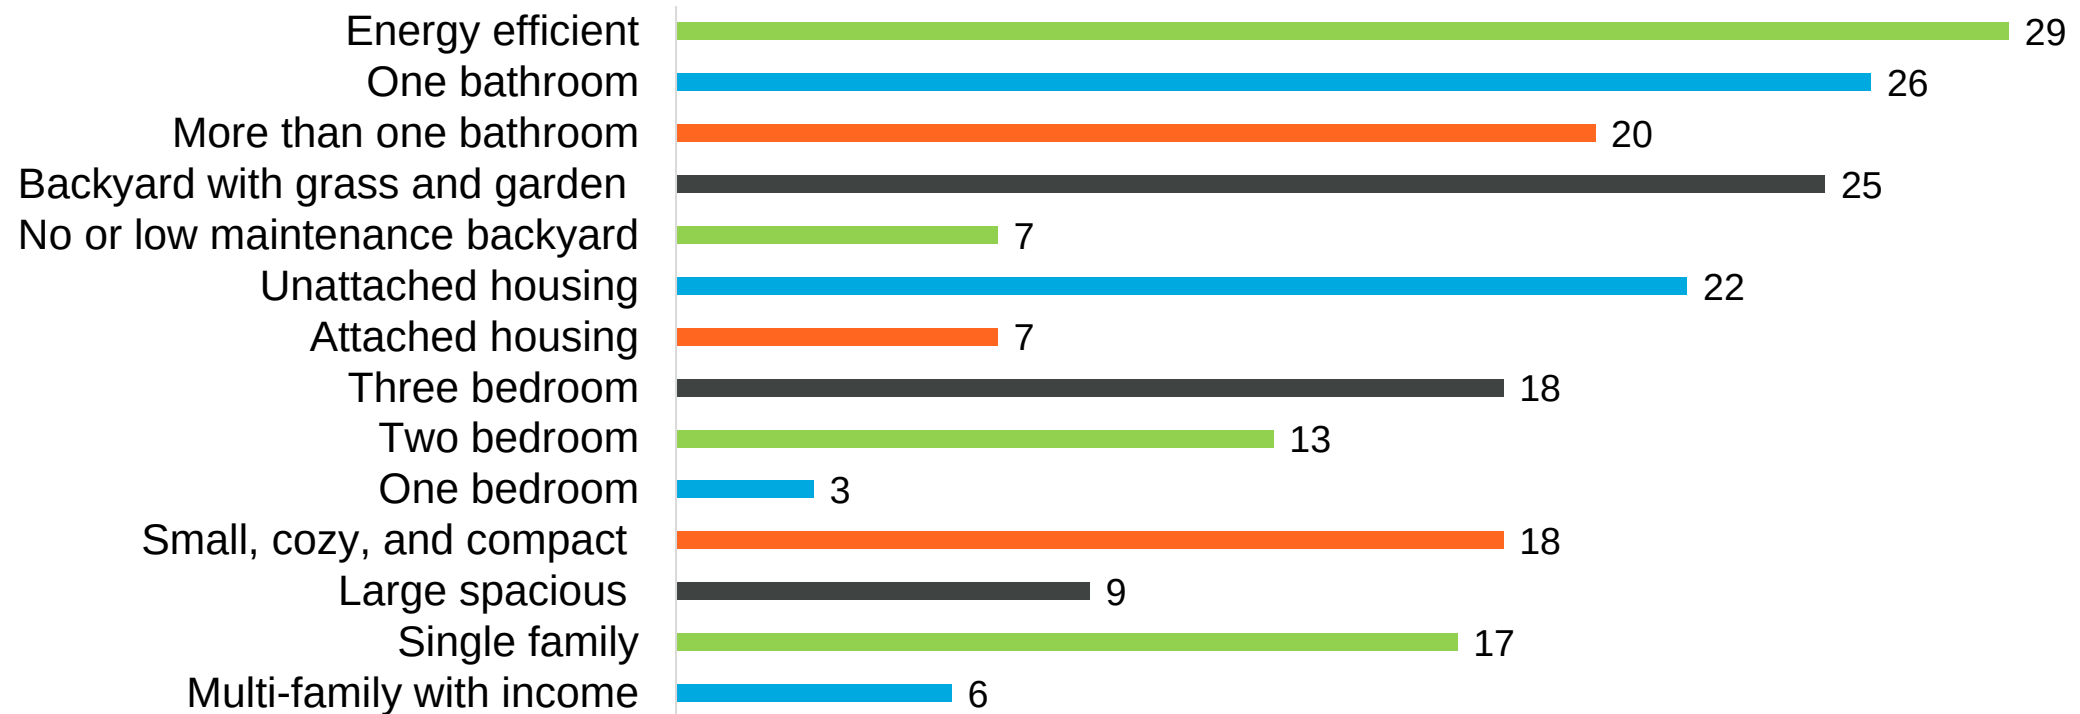

If you live with others, does the cost of rent/home ownership impact your choice to share costs of housing?

n = 33

Housing

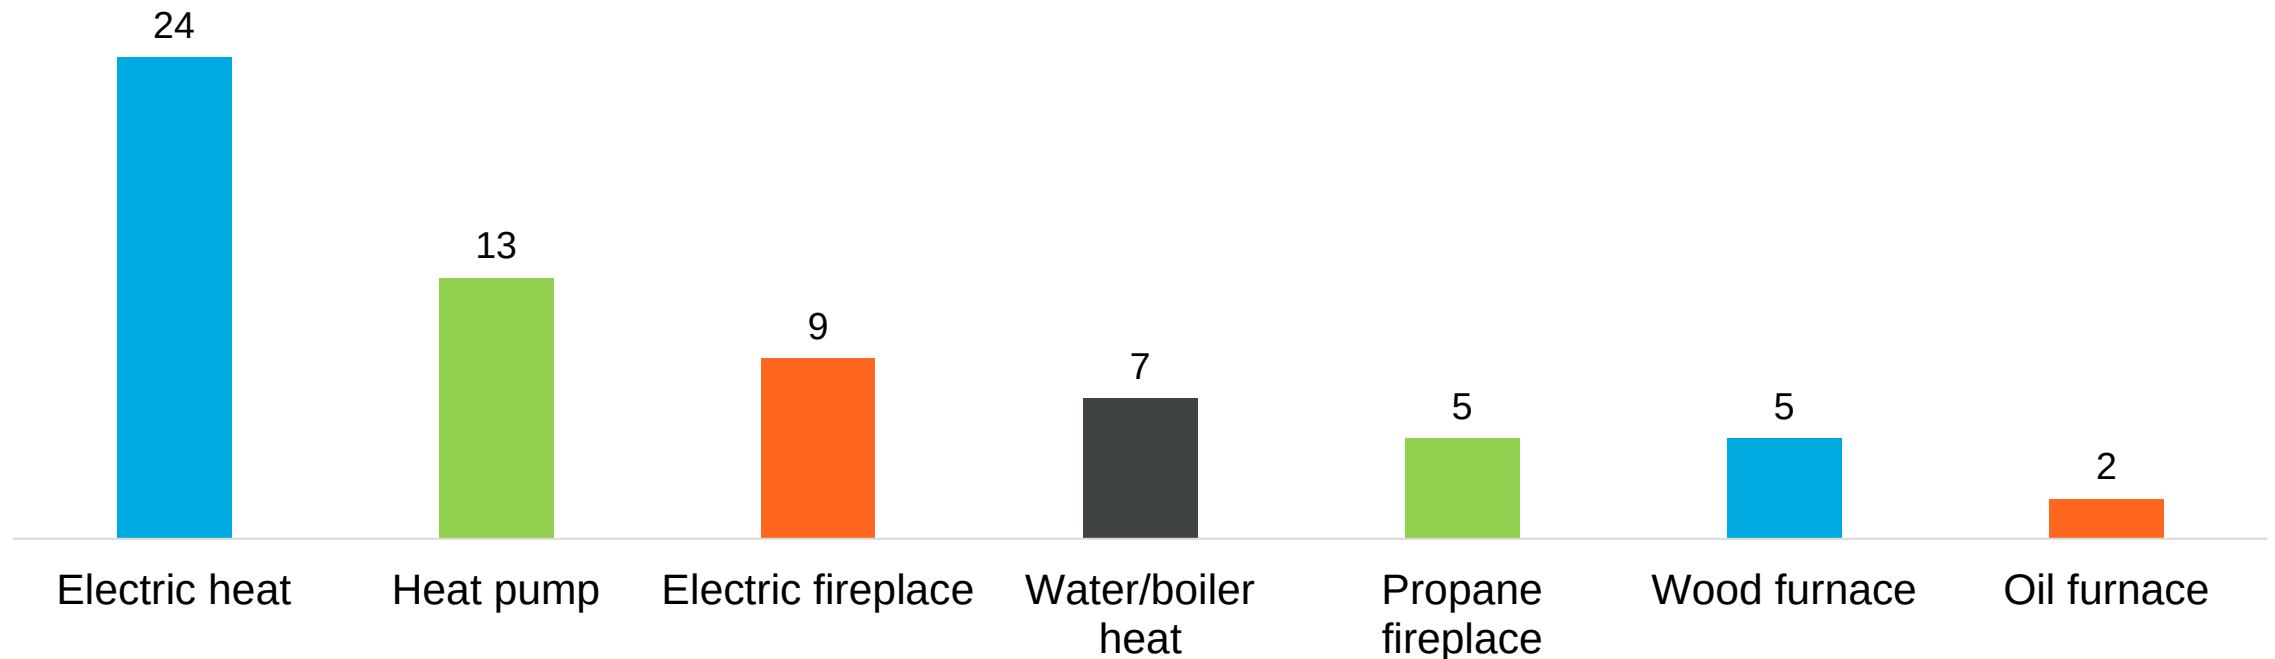

What does your ideal home look like (select all that apply)?

n = 33

Housing

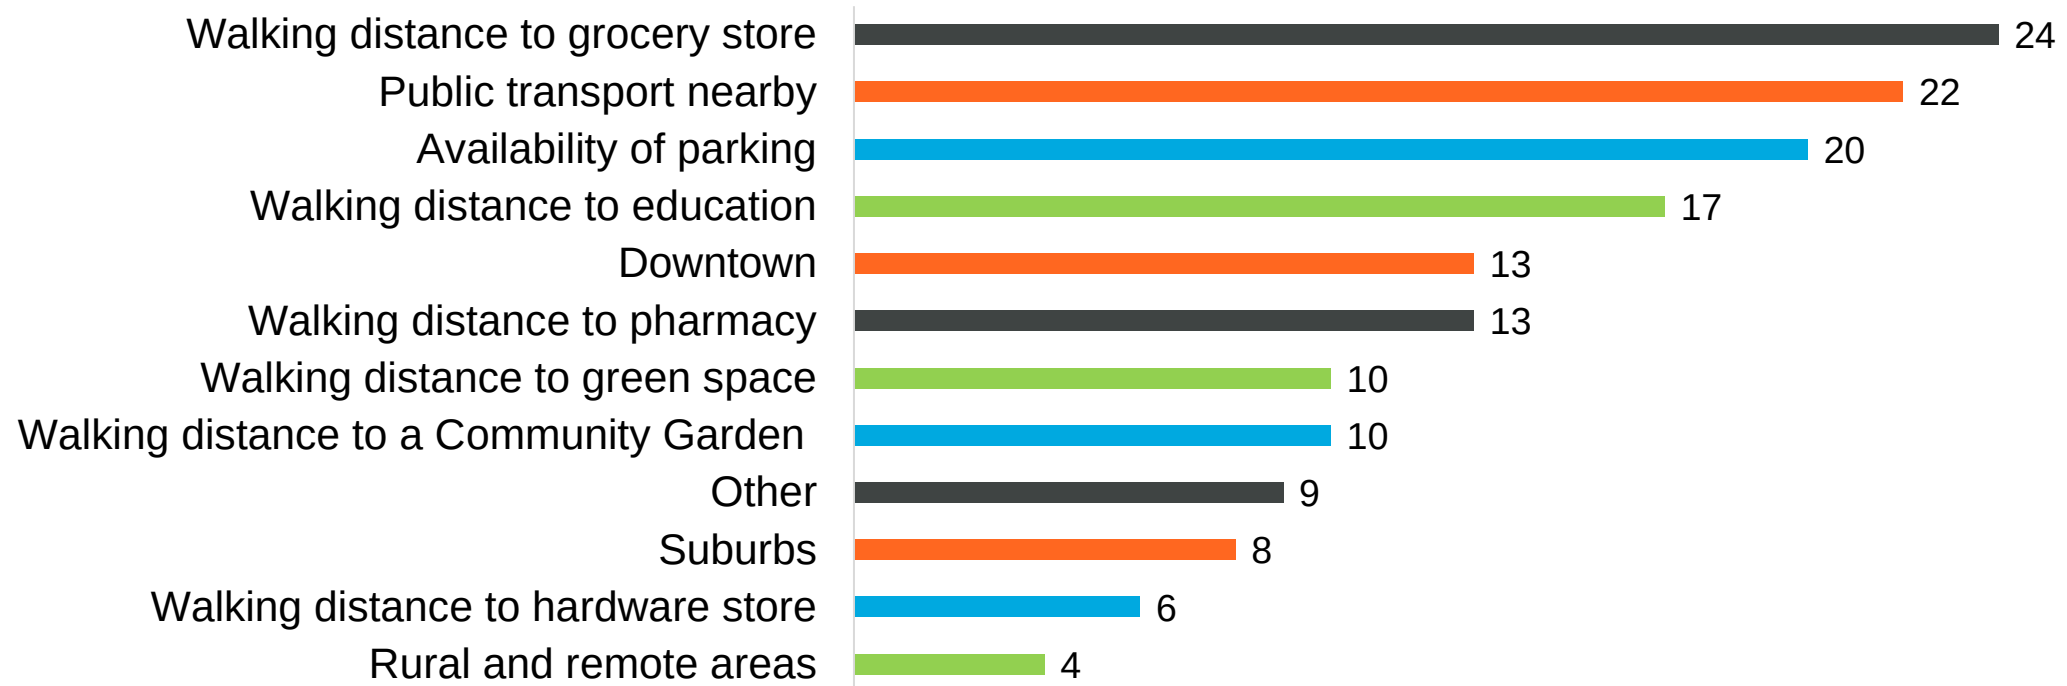

What is your preferred heating source (select all that apply)?

n = 33

Housing

What does your ideal home look like (select all that apply)?

n = 33

Other = Quiet, Safe, Two lanes or less, Bike path, Close to: leisure activities, hospital/clinic, children's recreation, my work
